

OneVoice

energisers

The One Voice experience that creates team harmony through the power of song to benefit your workplace.

The human voice is more than a form of communication – through song around the world for thousands of years, it has used its power to inspire, uplift and bring people together.

One Voice nurtures the power of song that is in all of us and, by combining all the voices in a team, demonstrates how the power of self-realization and combined effort can create something truly wonderful. We believe that once a team has found its “voice” it can go on to achieve almost anything.

Guided by our professional vocal coaches, delegates are challenged in their skill to give space, listen and find their own place in the larger group.

Having gained confidence they learn to sing the fantastic and energetic songs, who for many years have created team spirit and joy in gospel churches, throughout America. The combination of singing, shouting, and moving is hugely fun and uplifting.

Finally, the whole team comes together to sing in one voice – a voice that will amaze the team and show what they can achieve when they really open their hearts minds and mouths.

Inspirational, enlivening and fun, this experience is designed to have everyone at your conference singing with confidence at the top of their voices – energized, alive and working as one like never before.

key business benefits

- breaks the ice
- high energy
